★ Tex-Star Line

**Any Slope Combination
0-50° Adjustment**

**Steps are Individually
Adjustable.**

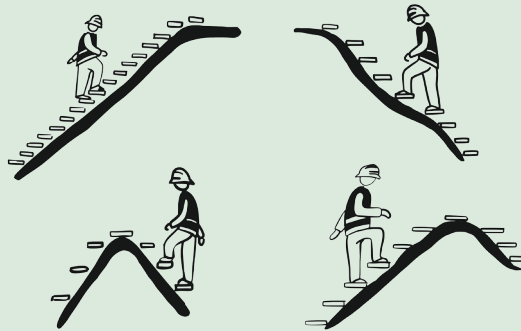

Solution For Lined Technology

**Stairway system
designed for all types of
Geo Synthetic Membranes**

Will Not Penetrate Liner

All Lengths Available

**For Use Before, During and
After Liner Installation.**

**The Flexstep utilizes patented technology
to produce a stairway with a unique
combination of a pressure dissipating mat
base, and adjustable steps that are also
non penetrating to liners. The adjust-ability
of stairway provides for safe and efficient
access for many industrial applications.**
